

4000 Vocarb

Complete Air Filtration, More Compact Design

This unit is designed to treat volatile organic compounds, odors and other airborne pollutants in smaller spaces. It features a 12 lb. Vocarb-blend activated carbon filter, which provides enhanced adsorption of smaller VOCs like formaldehyde and benzene that are difficult to trap.

Why AllerAir Air Purifiers

Backed by unparalleled expertise in air quality control and a superior filtration system, AllerAir air cleaners are individually customized to target the airborne pollutants of concern in the environment. Our units offer more filtration media than any other manufacturer, with the deepest carbon bed filters for chemicals, gases and odors, and superior medical-grade HEPA filters for particle control.

Cleaner Indoor Air

Clean air is recognized as a vital component for overall comfort, workplace health and safety as well as productivity. According to research from leading organizations like the EPA, WHO and Health Canada, indoor air pollution may pose more of a public health risk in North America than outdoor air pollution.

Green Features

- All-metal housing
- Ozone-free filtration technology
- Energy efficient
- Refillable carbon canisters
- Styrofoam free
- North American sourced parts and materials
- North American assembly

Technical Specifications

Carbon Filter	12 lb. Vocarb Blend, 2.5" depth
HEPA Filter & Pre-filters	Medical-grade HEPA and Pre-filter
Options	UV Light, Custom Carbon Blends
CFM	400 Free flow
Voltage	115V/60Hz or 230V/50Hz
Dimensions	17.5" (height) x 15" (diameter)
Shipping Weight	Approx. 42 lbs.
Available Colors	Black, Sandstone
