

# AirMedic+ D MCS

## Advanced Air Filtration, Superior Particle Control

With an even deeper carbon bed than the AirMedic+ MCS, the AirMedic+ D MCS provides the highest degree of adsorption for a wide spectrum of chemicals, gases and odors, and is the ideal air filter for a MCS sufferer living in a highly polluted environment. It's made with completely inert materials to provide the most effective MCS relief available in today's market.

### ■ Why AllerAir Air Purifiers

Backed by unparalleled expertise in air quality control and a superior filtration system, AllerAir air cleaners are individually customized to target the airborne pollutants of concern in the environment. Our units offer more filtration media than any other manufacturer, with the deepest carbon bed filters for chemicals, gases and odors, and superior medical-grade HEPA filters for particle control.

### ■ Cleaner Indoor Air

Clean air is recognized as a vital component for overall comfort, workplace health and safety as well as productivity. According to research from leading organizations like the EPA, WHO and Health Canada, indoor air pollution may pose more of a public health risk in North America than outdoor air pollution.

### ■ Green Features

- All-metal housing
- Ozone-free filtration technology
- Energy efficient
- Refillable carbon canisters
- Styrofoam free
- North American sourced parts and materials
- North American assembly

### Technical Specifications

Carbon Filter	25 lb.
HEPA Filter & Pre-filters	Micro-HEPA particle filter, Organic Cotton Pre-filter
Options	UV Light Custom Carbon Blends
CFM	360 Free flow
Voltage	115V/60Hz or 230V/50Hz
Dimensions	17.5" (height) x 15" (diameter)
Shipping Weight	Approx. 55 lbs. 2 boxes
Available Colors	Black, Sandstone, White
