

AirMedic+ Vocarb

Advanced Air Filtration, Superior Particle Control

The AirMedic+ is our most efficient unit for particles and features the added protection of an 18 lb. deep-bed activated carbon filter for chemicals, gases and odors. This remarkable filtration system uses a medical-grade HEPA filter to eliminate 99.97% of airborne particles 0.3 microns in size, in conjunction with our special Vocarb-blend carbon to adsorb chemicals, volatile organic compounds (VOCs), gases and odors. Ideal for use next to desktop printers, in bedrooms or any area that requires particle and chemical filtration.

■ Why AllerAir Air Purifiers

Backed by unparalleled expertise in air quality control and a superior filtration system, AllerAir air cleaners are individually customized to target the airborne pollutants of concern in the environment. Our units offer more filtration media than any other manufacturer, with the deepest carbon bed filters for chemicals, gases and odors, and superior medical-grade HEPA filters for particle control.

■ Cleaner Indoor Air

Clean air is recognized as a vital component for overall comfort, workplace health and safety as well as productivity. According to research from leading organizations like the EPA, WHO and Health Canada, indoor air pollution may pose more of a public health risk in North America than outdoor air pollution.

■ Green Features

-  All-metal housing
-  Ozone-free filtration technology
-  Energy efficient
-  Refillable carbon canisters
-  Styrofoam free
-  North American sourced parts and materials
-  North American assembly

Technical Specifications

| | |
|---------------------------|---------------------------------------|
| Carbon Filter | 18 lb., 2" depth |
| HEPA Filter & Pre-filters | Medical-grade HEPA filter, Pre-filter |
| Options | UV Lamp Custom Carbon Blends |
| CFM | 360 Free flow |
| Voltage | 115V/60Hz or 230V/50Hz |
| Dimensions | 17.5" (height) x 15" (diameter) |
| Shipping Weight | Approx. 45 lbs. |
| Available Colors | Black, Sandstone, White |
