

Negative air
or
Recirculating

The I-6500 HO

Filter Airborne Particles
Droplets, Bacteria and Viruses

Create negative air isolation areas quickly
or use for recirculation

- **Hospital grade HEPA filter**
Hospital grade HEPA. Filters 99.97% of particles as small as 0.3 microns.
- **2 Easy Change Prefilters**
Trap larger particles
- **Gel Pressure Seal**
Gel Pressure Seal prevents by-pass leakage from filter chamber to maximize filtration efficiency
- **2 speed 700 or 1000 rated CFM**
Choice of 2 speeds. Can provide 12 air changes per hour in a 2500 cu ft space
- **Easily changeable filters**
Conveniently accessible filter trays for rapid replacement
- **Motor available before or after filters**
Motor before filter provides clean room quality air
- **Convenient to move**
Easy to move from location to location
- **Robust all-metal housing**
Powder coated steel housing ensures durability and no off-gassing of harmful plastic vapors

I-6500 HO

Dimensions: 24.5" x 21" x 42"

DOP Tested

Reduce Particles, Bacteria and Droplet Borne Viruses
