

## Pounds of Activated Carbon plus HEPA Trap Noxious Gases and Odors as well as Particles

Most off the shelf air cleaners have a few token ounces of carbon sprayed on a mesh, It's not enough to make any real difference. **AllerAir High Efficiency Air Cleaners** have pounds of carbon to clean noxious gases and odors from your indoor air.

### Unique **AllerAir** features

- Metal housing**  
Most off the self air cleaners are housed in plastic that off-gas plastic vapors.
- Glueless felt gasket**  
Most other air cleaners use glued rubber gaskets that give off odors and vapors.
- American made motor**  
High quality motors assure trouble free running and low consumption (average 60 watts).
- Closed, sealed motor windings**  
Ensures clean motor operation.
- Separate HEPA and Carbon filters**  
Can be changed at different intervals. You save on filter replacement costs.
- Warm rolled HEPA with separators**  
Avoids cracking at the folds and keeps the folds open over the life of the filter.
- Easy change pre-filter**  
Pre-filter can be removed and cleaned in 30 seconds.
- 2 anti-microbial filters**  
The carbon bed is wrapped in 2 anti-microbial filters to suppress any microbes around the filters.
- Dual air flow system**  
Air enters vertically at the bottom and exits horizontally at the top, Avoids mixing and increasing effective cleaning range.
- Cylindrical Shape**  
Maximizes filtration and avoids stale air in corners.
- UV Lamp option**  
Sterilizes airborne antigens and pathogens.
- 40 Special blends of carbon available**  
AllerAir air quality specialists can recommend the correct blend of carbon for specific chemical and VOC problems.

### AllerAir 5 stage filtration really cleans the air you breathe

- 1 Cleanable pre-filter**  
Traps large particles.
- 2 Anti-microbial filter**  
Suppresses bacteria and viruses.
- 3 Activated carbon filter**  
Absorbes noxious gases and odors.
- 4 Anti-microbial filter**  
Suppresses bacteria and viruses.
- 5 HEPA filter**  
Traps 99.97% of particles as small as 0.3 microns.

## Dedicated to bringing you healthy indoor air

More filtration • More features • Less cost
